

Pete Sartoris Badly Injured in Accident

Mr. Pete Sartoris of Blairmore met with a very bad accident last Saturday near the Auto Camp, just north of Thornton's warehouse, when a car which he was loading onto a truck slipped and fell over to one side, pinning him underneath. Help was rushed to the scene and he was released immediately and taken to the Blairmore hospital by ambulance.

He is being treated for shock and minor internal injuries, and is recovering favorably.

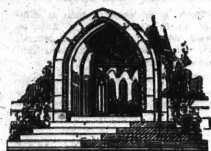

Forestry Unit Hold Meetings in the Pass

The Canadian Forestry Association staged its annual conservation program in Blairmore on Tuesday, Aug. 17. While in this district it also gave their program in Coleman, Bellevue and Hillcrest.

Working in co-operation with the Alberta Forest Service, the Association is endeavoring to secure greater public co-operation in the prevention of forest fires, and in the conservation of all our natural resources. The program of films and lectures which John Coats and Barry Beaven presented, tells the story of our natural resources, and the valuable part they play in our lives. Emphasis was placed upon the importance of watersheds on the eastern slope of their controlling stream flow across the prairies.

After holding the several meetings in the Pass, the tour has now moved on to Waterton Park, where programs will be presented on Friday and Saturday of this week. From there Coats and Beaven will return to Manitoba and continue their work of conservation in the forested areas of that province.

in charge.
Sunday services at 8 p.m. in the Union Hall.
The public is cordially invited.

On-to-Nelson Caravan to Pass Here Sept. 8

It's "On to Nelson" from now until the eighth of September, as Chamber of Commerce and Board of Trade men from Vancouver to Winnipeg prepare to trek to Nelson to make constructive plans for the building of an "open-all-year-round" trans-canada highway.

The "On to Nelson" caravan started out once before this summer, but had to turn back because of the BC floods. But nothing daunted, the men are preparing to start again, and this time they expect to reach their objective.

Starting from Winnipeg on Sept. 6, the cars will snowball through Manitoba, Saskatchewan, Alberta and British Columbia, picking up more and more cars as they go along. At all stopping points across the west, cars will join the big trek, until by the time the caravan reaches Nelson, it is expected that from 700 to 800 cars will be rolling along. Cars coming along the route from Vancouver will converge with the eastern group at Nelson.

The caravan is expected to be in Lethbridge on the morning of Sept. 8th, when they will stop for an early "break." Leaving Lethbridge at 11 a.m., they will meet at Macleod for an Indian celebration, later travelling through the Pass where stops will be made at Coleman and Fernie, and then to Cranbrook, where they will spend the night. They will reach Nelson about 6 o'clock in the evening of the 9th.

Awaking on Sept. 10, members of the caravan can expect a big day, one filled with meetings, celebrations and discussions. The day will finish with a mammoth banquet presented by the city of Nelson and the Nelson Board of Trade.

Primary purpose of the "On to Nelson" caravan is to convince the federal and provincial governments that whether the federal government will participate or not, they want the provinces of British Columbia, Alberta, Saskatchewan and Manitoba to agree on finishing a route through the south of each province that is hard-surfaced and able to be kept open the year through.

Such a southern route running near the International border should entice tourists to come over the intersecting roads to our highways. Furthermore with the austerity program and the necessity of saving US dollar supplies in Canada, it means that Canada needs road which people can travel in the Dominion the entire twelve months of the year.

All these points will be discussed at the meeting. Directors for all provinces will be chosen who will in turn lobby with provincial and federal governments and the highway commission, if, as, and when the federal government will set one up.

TO PUBLICIZE SOUTH HIGHWAY

Vancouver citizens are just as anxious for a southern trans-Canada highway route as the people of the Crow's Nest Pass and Lethbridge. A meeting of the Vancouver "On to Nelson" committee disclosed their intention recently of publicizing their cause in the coming Pacific Northwest Exhibition. The committee reported that space had been acquired in the Modern Living Building to exhibit a wall map of the proposed southern route. The map ten feet long and five feet high, would show every centre along the route. When set up in the exhibition booth, leaders from various towns will be attached to placards giving brief statistical resumes from each centre.

Joe Kubik, Don Theron, Guido Martini and John Ferstay went up the North Fork to feed the fish.

Wm. Kovach Receives Large Majority P.C.-C.N.

William Kovach, of Hillcrest, Alberta, the Social Credit candidate for Pincher Creek-Crows' Nest constituency, was assured a Legislative seat after the first count in the provincial election. He led his nearest rival by a landslide majority of 1,240 votes. The first and unofficial count was as follows: W. Kovach, SC; J. Lloyd, CCF; J. W. Rutherford, Lib., and B. R. Swankey, LPP:

Nelson Gahn Goes to Medicine Hat Post

Appointed manager of the Horne and Pitfield wholesale grocery branch to be opened in Medicine Hat on Sept. 1, was Nelson Gahn, an employee in the Lethbridge office of the firm. He is already in Medicine Hat making preparations for the branch opening.

Mr. Gahn has been with Horne and Pitfield for 12 years. Born in Calgary, he attended both Calgary and Lethbridge schools, immediately after which he started in at the Lethbridge office. He was sent out on the road and travelled for the company until he went overseas with the air force. Upon his return, he continued his work as a traveller. At the beginning of this year he went into the office as sales manager and buyer and remained there until his latest appointment.

Mrs. Gahn and two daughters are still residing in Lethbridge, but plan to leave for Medicine Hat in the near future.

HILLCREST ITEMS

Mr. and Mrs. N. Massine and two children of Medicine Hat are visiting at the home of Mr. and Mrs. A. Massine.

Mr. G. E. Cruickshank is a business visitor in Winnipeg this week.

Mr. and Mrs. McFarland and young son arrived recently from Dundee, Scotland, to make their home in the Pass. At present they are visiting with Mr. McFarland's uncle and aunt, Mr. and Mrs. A. Bain Sr.

Miss Joan Pettie of Three Hills is a holiday guest of Miss Valeria Martinek.

Mr. and Mrs. John Hartford were business visitors in Lethbridge over the week end.

Mr. and Mrs. J. Curry and family motored to Waterton on Sunday.

Mrs. W. Dyer and son Bill of Vancouver are visiting at the home of Mrs. Dyer's parents, Mr. and Mrs. J. Atkinson.

Mr. and Mrs. R. Cruickshank and sons David and Donald of Olds are holidaying at the home of Mr. Cruickshank's parents. They expect to go on to New Denver before returning home.

Mr. and Mrs. Alec Grant and Sandy spent a few days last week at Waterton.

Mrs. Angus Grant is visiting in Calgary with her brother-in-law and sister, Mr. and Mrs. E. Bergen.

Mr. and Mrs. A. Bianchini and children are holidaying at the coast.

The annual picnic of the United Church Sunday school was held last Saturday at the old golf course. Over 70 attended and enjoyed a grand day of games, races, softball and lots of ice cream and soft drinks.

Mabel: "I wonder what catskinners talk about when they're alone?"

Minnie: "Probably the same thing we do."

Mabel: "Oh, aren't they awful?"

Annual Bellevue Flower Show

Plan now to attend the 31st annual flower show and exhibition of the Bellevue and District Horticultural and Industrial Society, which will be held in the Bellevue arena on Labor Day, Monday, Sept. 6.

There will be \$600 in prize money and over 1,000 entries. Every show has been a success and the grand exhibition consists of flowers, vegetables, handwork, school work and domestic science. Special prizes are awarded as follows: the Bellevue and District Horticultural Society cup for most points in outdoor grown produce, the Royal Bank of Canada cup and medal for most points in indoor grown produce; Henry Birks and Sons vase for best collection of annuals. Special prizes will be given in other classes.

Doors will be open from 1 to 7 p.m. and admission to the arena is only 25 cents. Large and small parcels of the winning flowers and vegetables will be auctioned in the arena at 7 p.m.

Wm. Kerr, president, and James Radford, secretary-treasurer, are in charge. A special notice to Society members and exhibitors is to the effect that entries close at 6 p.m. on Sept. 4, and no entries will be accepted the morning of the show, the time being required to display the exhibits and allow for judging in time for the opening hour.

A grand dance in the IOOF hall starting at 9 p.m. will wind up the day. Ed's orchestra will play their melodious tunes. Admission is 75c for gents and 50c for ladies. Refreshments will be served in the hall at a small charge.

Don't miss this great day!

Former Coleman Man to New Post

Elio D'Appollonia, former Coleman youth, has successfully completed his August requirements for a degree of doctor of philosophy in civil engineering at the University of Illinois in Urbana.

He received his degrees of bachelor of science and master of science in civil engineering at the University of Alberta in 1942 and 1946 respectively, during which period he also taught at the University of Alberta.

He is now leaving Urbana with his wife, a former Edmonton nurse, and two sons to accept the position of assistant professor in civil engineering at Carnegie Institute of Technology in Pittsburgh, Pennsylvania.

Mr. D'Appollonia is the younger son of Mr. and Mrs. J. S. D'Appollonia, formerly of Coleman and now residing in Creston, BC.

Impressed With Alberta Mining

A British coal expert, E. E. James Farmer, touring Canada and U.S. coal mines on behalf of a London firm of mining industrial consultants, gave high praise in Edmonton last Saturday to Alberta coal-mining methods and the "colossal future scope of industry in Alberta."

He had just returned from a 10-day inspection trip of every coal field in the province, conducted by A. Bradshaw, of the economic department of the Alberta government.

Mr. Farmer, who prior to his departure from Europe was in charge of the British portion of one of Germany's strip mines, said that the coal mining operations in Alberta are as advanced as any in the world with the possible exception of Germany.

Pass Miner Meets Death at Coleman

John Omelusik, 23, an employee of McGillivray Creek Coal & Coke Co., Coleman, was killed Monday in an accident at the mine.

The young mine worker was working at the tippie when he caught his hand in a belt and became pinned under a mass of coal from the tippie.

Omelusik was born in Hillcrest and attended the Hillcrest schools. His parents are dead and he is survived by his wife, the former Annie Kalivoda, and a 16-month-old daughter. The young couple were married in 1946.

An inquest was held at Coleman Wednesday evening, Corner W. A. McLeod of Pincher Creek presiding. The verdict was announced as accidental death.

COWLEY HAPPENINGS

Stanley Snyder is recovering from dislocating a shoulder while making hay. The accident happened when he fell from a barn loft while helping Lance Coats with his hay.

Miss Joan Colvin of Kimberley, BC, and Miss Bessie Lee of Calgary are vacationing at the home of Mrs. Ida M. Irwin and Mr. and Mrs. Frank Webber on the Middle Fork river.

Mrs. Edward Percival entertained the Ladies Aid of the United church at her home on Wednesday afternoon. A parcel of groceries was sent to a needy family in Scotland.

While operating a combine, T. E. Murphy had the misfortune to get the end of a finger cut off. After a trip to a doctor for dressing, Mr. Murphy is carrying on with his usual routine of activities.

After serving as janitor and general caretaker of the Cowley school over a long term of years, George Baker has resigned the position and has gone to Macleod where he intends residing in future.

After spending several weeks at the parental home of Mr. and Mrs. T. E. Murphy, Mrs. Bud Wall and her three children have returned to Fort Smith, NWT, where they will join Mr. Wall.

Wm. Cochrane and Neil Nicholson as guests this week J. B. Wilson (former bank manager at Blairmore) now of Vancouver, BC, and his son and daughter-in-law, Mr. and Mrs. Becher Wilson of Bellevue, and Bart Crawford and his son Elmer of Vernon, BC (former resident on Five Mile).

The Misses Alison and Kay Davidson of Blairmore, who have been on a summer vacation trip to Kananaskis and Banff, when on their return home made a stopover here to pay a visit to their father, A.L.R. Davidson, at the Cowley hotel. The young ladies made the return journey from Banff National Park on horseback. They report a most enjoyable time. The elder sister is employed as teacher on the High River teaching staff, while the younger of the two will enter Normal school this fall.

On Friday afternoon, August 13, Mrs. W. E. Bent entertained in honor of her daughter-in-law, Mrs. Roy Bent of Drumheller, who made a stopover here on her way for a holiday trip to Vancouver and Victoria, BC, and Seattle, Wash.

Mr. and Mrs. Jack Stainsby have returned from a holiday trip spent with friends in Lethbridge this week.

"I never see you with Joan nowadays."

"No, I don't like the way she laughs."

"Really? I've never noticed it."

"Well, you weren't there when I proposed to her."

A Valuable Service

THE WORK OF THE Canadian National Institute for the Blind is known to many and there is widespread interest in, and admiration for the splendid results which have been achieved by this organization in the thirty years of its activity here. The Institute has done a great deal, during that time, to prove that blind people can be successfully rehabilitated and their economic problems adjusted. With the continued interest and co-operation of the public there is now little doubt but that in most cases, blind people can find useful occupations in the community and enjoy economic independence and security.

Need Stressed For Prevention

The number of registered blind people in Canada now is 15,644, while prevention cases, that is ones in which the likelihood of blindness is indicated, number 38,618. Of these, 2,900 were given treatment or assistance during the past year. While these figures have been made available, they do not represent all the cases which came to the attention of the Institute, since new ones are constantly occurring and being brought for treatment. In the field of prevention, emphasis is laid on the importance of maintaining and increasing this service, since the value of assisting preventable cases of blindness cannot be overestimated.

Great Need For New Libraries

One of the many services rendered by the Canadian National Institute for the Blind is the free library service, which makes available books in Braille, Moon, and "talking books". These can be secured in Winnipeg, Vancouver and Toronto, but the great demand for the books in these libraries, and particularly for the "talking books" makes it evident that it would be desirable to have a great many more centres for this service. Another project which the Institute is now anxious to advance, is to increase the number of its residences, recreation and service centres for the blind. It is clear that this organization has, in the past thirty years, done an enormous service to the blind people in this country in lessening their suffering and in helping them to find interesting and useful occupations. It is to be hoped that it will continue to receive the public support which it so richly deserves in its important and humanitarian service.

Even for double the price you can't buy anything better than

Gold Output Remains Higher Than Last Year

OTTAWA.—Gold production for May dropped from the figure set in April but still was higher than a year ago, the Bureau of Statistics reports.

Output totalled 285,566 fine ounces compared with 286,065 in April and 288,910 in May, 1947. During the first five months of 1948, production rose to 1,394,908 fine ounces against 1,344,823 for the like period of 1947. May output by region was: Ontario, 5,458 (5,034); Yukon, 13 (30).

RECIPES

MEAT LOAF

Shape hamburger mixture (with bread crumbs) into a loaf; lay slices of bacon across the top. Place in baking pan and bake at (400 deg. F.) for 45 minutes. If the oven is being used for something that requires a low temperature, the meat loaf can be baked for 2 hours at (300 deg. F.). Serve with gravy made from fat in pan by adding flour. Allow to brown, add boiling water.

APPLE SNOW

½ cup cooked apple
3 egg whites
Powdered sugar
Pare, quarter and core 4 sour apples. Steam until soft and rub through sieve. There should be ½ cup cooked apple. Beat the whites of eggs until stiff; add gradually apples sweetened to taste. Pile lightly on a dish and serve with custard sauce. One tablespoon lemon juice may be added.

BAKED POTATOES

RETAIN VITAMINS

Medical men know that many health-giving foods we eat regularly do us less good than they might because they are improperly prepared for the table.

In Canada a traditional method of preparing potatoes, for instance, is to boil and mash them. This process destroys about half the vitamin C in them. Baked in their jackets they retain almost all of this element so vital in keeping the body's tissues healthy.

In medieval warfare, armies by agreement never engaged in active campaigning during winter.

FUNNY And OTHERWISE

Mother: "What are you doing in the pantry, Tommy?"
Tommy: "Fighting temptation, mother."

The grateful father was thanking the young man for his bravery in rescuing his daughter from the river. He finished up: "Do you realize, my boy, the great danger you were placing yourself in!"
To this the rescuer replied briefly: "There wasn't any. I am a champion swimmer and I am already married."

"Do you have much variety at your boarding house?"
"Well, we have three different names for the meals."

Teacher: "If a number of cattle are called a herd, and a number of sheep are called a flock, what would a number of calves be called?"
Johnny: "A carton."

"What is dignity, Dad?"
"Dignity, my son is what you think you have until the boss says 'What's the meaning of this?'"

"Boy, if I don't get rid of this cold soon, I'll be a dead one," moaned the jockey to the exercise boy.
"Didja do what the doctor said?" asked the boy.

"Yaw," replied the jockey. "The sign on his door said '10 to 1' and I wouldn't monkey with a long shot like that!"

"Who's the responsible man here?" asked the caller.
"If you mean the fellow that also gets the blame," answered the office boy, "you're speaking to him now."

"My dear," said the fond mother earnestly. "I can't think why you can't get on with your husband. He's all right in his way."

"Yes, I know, mother," said her daughter. "But he's always in mine."

The travellers in the railway carriage were discussing railway matters. "I consider," said one, "that the single fare for the double journey is a very good investment."

"That certainly is," added another, "because you get a return for your money."

FIGURED OUT SURE WAY OF GETTING A SEAT

The nervous little man glanced nervously at his watch, grabbed his bag, and rushed out to the station platform. The effect on the other travellers was all that could be desired. They also picked up their luggage and ran. Shortly afterward, the little man returned, picked out the best seat in the station and sat down to wait for the train—which was not due for 30 minutes.

FREAK EGG — YOKO MISSING

ZEBALLOS, B.C.—Here's the latest in freak eggs—one without a yolk.

It came from Vancouver and its oddity was discovered by Ralph Forrester, government scaler for the Manning Logging Co., at the breakfast table.

Cinnamon is used in flavoring in some medicines.

THE SWEETSTAKES COMPETITION for boys' and girls' dairy club clubs was big event in the Saskatoon Exhibition. The top calf of the class is shown in the upper of the above two photographs and was owned by and is shown here with Don Gamble, of Moose Jaw. The whole line-up is shown in the lower picture. Don's calf can be identified as the second from the near end. Standing with a cane in the foreground is Claude Gooding, president of the exhibition.

Need Of Western Eggs To Check Rising Prices

TORONTO.—Only possibility of a break in the present high egg prices at present seen by Dominion Department of Agriculture officials is an influx of western eggs.

A spokesman for the department agreed with Ontario Department of Agriculture officials that the price of eggs may go even higher and eventually reach \$1.00 a dozen.

As he explained it production of chicks is down 26 per cent. in Ontario this year and the pullets that are being bred were produced late in the season. The reason he said, is the farmers simply sold off the market this season. A combination of factors, including the low egg price, high cost of feed and shortage of labor as well as of those trends which no one can ever quite explain was responsible.

The result of the decreased production means fewer eggs, and in addition, the late buying means a severe shortage.

Production on the prairies is down though not to the extent of Ontario.

J. R. SMALLWOOD MAY BECOME Nfld. PREMIER

ST. JOHN'S.—Joseph Robert Smallwood, 48, the apostle of confederation, will in all likelihood be Newfoundland's first provincial premier.

Smallwood is probably, at one and the same time, the most loved and most hated man in Canada's future 10th province. But all agree with this phrase, coming from one of his opponents: "Joe Smallwood is not a man in 300,000 but one in 3,000,000."

A speaker among speakers, a fighter hard to beat once the going sounds, Smallwood almost single-handedly swung this country to confederation. In the last three days before the July 22 referendum, for instance, he attended 52 meetings.

DOES INDIGESTION WALLOP YOU BELOW THE BELT?

Help Your Digestion "28" For The Kind Of Relief That Helps Make You Run To Go

More than half of your digestion is done below the belt—in your 28 feet of bowels. So when indigestion strikes, try something that helps digestion in the stomach AND below the belt.

What you may need is Carter's Little Liver Pills in 28's needed help is that "forgotten 28" of bowels.

Take one Carter's Little Liver Pill before breakfast, and take two according to directions. They will take you a larger low down—help you digest what you have eaten.

Then most folks get the kind of relief that makes you feel better from your head to your toes. Just be sure you get the genuine Carter's Little Liver Pills from your druggist—50¢.

THE TILLERS

HAIL DAMAGE IN MANITOBA, SASK. HEAVIER THIS YEAR

REGINA.—Over 1,600 claims for hail damage have been received this year by the Saskatchewan Municipal Association, about twice the number of claims submitted during the same period last year, according to J. S. Gist, assistant manager.

Hail losses have been heaviest in the Gowan, Imperial, Davidson, Loreburn and Dimmock districts. Estimated loss ranges from 10 to 100 per cent. Strasbourg and Stalwart districts also report extensive losses. In Saskatchewan, hail was slightly above normal. It is heavier in Manitoba than last year and much less in Alberta.

Damage in Manitoba is reported heaviest around Morden, Thornhill, Darnford, Manitou, La Riviere and Pilot Mound. Less damage has occurred near Brandon, Minnedosa, Neepawa, Russell and Reston.

In Alberta, Red Deer reports extensive damage. Some losses have occurred near Calgary, Munson, Lethbridge, Coaldale and near Edmonton.

CALGARY.—Officials of the Alberta Hail Insurance Board stated that the board has to date written only two-thirds as much hail insurance as was written at the same date last year.

Last season the board carried a risk of \$15 million and had a premium income of \$1.7 million. Due to heavy hail storms last year the board had to use \$250,000 in reserve to finance protection.

At July 15 this year 362 claims for hail insurance had been made compared with over 1,500 claims last year.

JUST ANOTHER MYTH
The common belief that the century plant blooms once in 100 years is a myth. In warm regions it grows rapidly and blooms about the seventh or eighth year. In hot houses or in colder climates 80 or 90 years may elapse before the plant blooms.

Fined \$2,500 For Selling Bad Eggs

SEATTLE.—Three men were fined \$2,500 each in Federal Court here for selling bad eggs to the U.S. government during the war.

Lavelle Donahue and Kenneth A. Moody of Tacoma and William R. Monacharch of San Francisco were said to have carried out orders of three officers of a California firm who recently were sent to jail and fined \$35,000.

Thousands of eggs were involved, fraudulent invoices were made out and the government shortchanged, Judge Lloyd L. Black was told.

Manitoba Starts New High School Course

Changes in the curriculum for Manitoba high schools—the most radical to be made by any province in Canada, according to officials of the department of education—will be introduced to Grade 10 students. Similar changes will be put into effect for Grades 11 and 12 at the beginning of the next term, September, 1949.

The new study program permits students to choose one out of five different courses, instead of the one general course formerly offered. The five alternative courses are: general (which leads to University); commercial, home economics, agriculture and industrial. All courses include the four basic subjects of English, mathematics, science and social studies. Aptitude tests have been conducted during the past two years to assist students to determine which course they wish to take.

There is no compulsion for smaller schools to offer all courses, officials point out. The school board in each case is free to select one or more of the specialized courses, depending on the equipment and staff available; or to offer the general course only, with such technical options as can be carried. The new general course is based on a four-year program for average students, but may be cut to three years by good students. The other courses require three years to complete.

Attention will also be paid to the personal choice of students in different areas, officials state. Winnipeg, for example, will not offer the agricultural course; Brandon does not offer a commercial course. In other present plans, while Dauphin intends to offer all five courses.

An additional feature of the new curriculum is that it sets aside from 10 to 12 per cent. of a student's school hours to be used, at the principal's discretion, for the needs of the school; e.g., guest club, debates, student councils, or remedial work in subjects in which the student is behind.

Subjects of the change are to encourage students to complete their high school course, and to use technical subjects as a medium for general education.

Blight Causes Big Loss To B.C. Potatoes

VANCOUVER.—Late blight of potatoes has become serious in some parts of the Lower Mainland and loss through rot has been severe in many cases, announces I. C. MacSwan, assistant plant pathologist, Vancouver.

Late blight is a fungus disease which devastated the potato crop in Ireland in 1845, and resulted in wide spread famine.

It spreads rapidly by wind and rain, and gets in its crop destroying work when the nights are cool, and the days warm and humid. Under such conditions a field may become completely blighted in a few days.

Mr. MacSwan says: "Unless proper precautions are taken now to prevent the spread of the disease from plant to plant in the field, and from plants and ground to the tubers, this loss of potatoes may be repeated in 'second early' and 'late' crops."

Rules for the conduct of debates in the English parliament are designed to curtail unnecessary argument as far as possible.

SASKATCHEWAN FINDS LEONARDITE

REGINA.—Deposits of leonardite have been discovered in the southern part of the province near Estevan, Dr. W. Graham, assistant professor of chemical engineering, University of Saskatchewan, reports.

An extensive research program with leonardite has been carried on at the university for over a year to discover its chemical makeup and possible commercial uses. The project is financed by the Saskatchewan Research Council.

Dr. Graham said that wood staining is the most promising use of leonardite discovered so far. When covered with varnish to make it waterproof, a satisfactory stain is obtained.

Other possibilities of the new mineral include use as a tanning agent, sizing material for paper, drilling mud for deep wells and paint pigments. Leonardite has also been used in the manufacture of pottery. Leonardite is a black, jelly like substance and is a "weathering" product of lignite coal.

GEMS OF THOUGHT

CONSCIENCE

God has endowed man with inalienable rights, among which are self-government, reason, and conscience.—Mary Baker Eddy.

There is no class of men so difficult to be managed in a state as those whose intentions are honest, but whose consciences are bewitched.—Napoleon.

The men who succeed best in public life are those who take the risk of standing by their own convictions.—James A. Garfield.

Cowardice asks, Is it safe? Expediency asks, Is it politic? Vanity asks, Is it popular? But Conscience asks, Is it right?—Punahon.

Labor to keep alive in your heart that little spark of celestial fire, called Conscience.—George Washington.

WORLD HAPPENINGS

BRIEFLY TOLD

Mrs. Agnes Marion Greenough, Edmonton author, soon will have some of her works appear in an anthology published in New York.

Trans-Canada air lines has fulfilled one of its strangest orders — shipment of nine black bear cubs to a circus in Britain.

Oris may soon run into stiff competition for glamorous hair-dos. A 14-year-old boy in Wilmington, Kent, Eng., won a prize for the most beautiful head of hair.

A \$100,000 building is to be erected in Regina by the Canadian National Institute for the Blind. Construction is expected to start next spring.

Dr. Edith Summerskill, parliamentary secretary to the food ministry, told Commons that two years of bread rationing had saved 960,000 tons of flour.

When he left for the Boer War, James Cowling said he would be back. When the war ended he stayed in South Africa as a wheat farmer. Recently he arrived back in New Zealand, aged 72.

Siam's court astrologers have chosen next March 2 for the coronation of King Phumiphon Aduldet, now studying in Switzerland. The 30-year-old king succeeded to the throne on the mysterious death of his brother, King Ananda Mahidol, in 1946.

Completion of the Grimshaw-Great Slave Lake highway is expected this Summer. It will enable heavily-loaded trucks to transport goods the year round to the south shore of Great Slave Lake from where they can be moved to Yellowknife, N.W.T., by water.

Untrapped Trapper

In an Arctic post the R.C.M.P. are anxious to get in touch with a local trapper.

The trapper's enthusiasm for an Indian girl led him to make gifts to her that were not his to give. He was apprehended, when complaints were brought to the R.C.M.P., and sentenced to cut the coming winter's supply of firewood for the post.

Through the Arctic summer the trapper worked off his sentence dutifully, was released and faded into the bush.

On the first cold night of late August a Mountie brought in an armful of the newly cut wood. He had some difficulty with it. A few more samples from various places in the pile confirmed his worst suspicions. The wood had all been cut two inches too long for the fire box.

Scientists To Study Natural Resources In West

EDMONTON—Two Montreal scientists arrived here on an eight-week journey through Alberta and southern British Columbia to determine how the natural resources of these provinces may fit into the future development of their company. They are Dr. D. F. Brown and George E. Gollop of the development department, Canadian Industries Limited.

According to a joint statement from the C-I-L men, they will look into the possibility of procuring raw materials for existing chemical industries and of business expansion within the area.

Opportunities for establishing new plants in Western Canada will be sought but a careful advance study is required before any decisions are reached. Many economic factors must be explored before a new industry is started in any locality, they said.

C-I-L already operates five plants in the West; a salt works in Neepawa, Man., a paint plant in Regina, an agricultural chemicals plant in New Westminster, B.C., and explosives plants at James Island, B.C., and Balmert, Man.

TO STUDY NATURAL RESOURCES IN WEST—Dr. D. F. Brown and George E. Gollop, Montreal scientists who are conducting an economic study of natural resources in Alberta and southern British Columbia for Canadian Industries Limited. Dr. Brown graduated from McGill University in Montreal with a Ph.D. degree in chemistry while Mr. Gollop is a graduate of Toronto University where he specialized in chemistry and mineralogy.

HANDY CART—Many a tired back can be saved by building a little cart like this for water or milk cans, and for all the other odd jobs of the kind. Though the original was designed for use at a summer cottage it would be useful on any farm.

Solves Problem Of Housing In Canadian Northland

WINNIPEG—If a visitor to the Canadian Arctic should find himself shadowed by a house while trekking across the tundra it wouldn't be a trick of the Northern Lights.

"Floating" buildings are one of the latest of many devices used in the Arctic to combat the vagaries of the north.

A Montreal construction engineer, George Jacobson, described the buildings in an interview here before proceeding to the 80th parallel, north of Cornwallis Island. There he will construct one in a chain of weather stations springing up across the Arctic as part of a meteorological program by the Canadian and American governments.

"Floating" houses, he said, is man's reply to permafrost—permanently frozen ground—which presents one of the greatest problems involved in northern construction work.

Permafrost varies from five to 200 feet in depth, with the top layer becoming muddy, and sloppy during the short Arctic summer.

"However, 'floating' houses are our answer to this problem. The buildings are designed on the same principle as a boat, they're not anchored to the ground but float with any movement of the earth's surface."

Similar in construction to Mosquito aircraft, the buildings have walls of light plywood, insulated both inside and outside with aluminum. Spun glass is used as an additional insulation factor.

Farm Improvement Loans not in excess of \$5,000 may be obtained for building purposes up to 90 per cent of the estimated cost of the building with an interest charge of five per cent, simple interest, with repayment terms of from one to ten years depending on the amount borrowed. Loans are made through the branches of the chartered banks in Canada and are guaranteed in part by the dominion government.

This legislation is being taken advantage of by an increasing number of farmers and it is probable that loans for building this year made under the act will greatly exceed those of last year.

The pamphlet giving particulars of the loans may be obtained from any branch of a chartered bank in Canada, or by writing to the Supervisor, Farm Improvement Loans Act, Ottawa.

Damp Forests Lessen Fire Hazard

VICTORIA—Forests dampened by rains are providing little fire hazard compared with former years. There have been 164 fewer fires this season than last when the total was 973. The cost has been much less, with the 619 outbreaks since May 1 costing only \$33,393 to combat, as against \$48,790 spent in the corresponding period of last year.

For a like period in the fire season 1946 there were 958 fires, costing \$60,548 to combat.

N.S. POTATO CROP GOOD

KENTVILLE, N.S. — Annapolis Valley apple prospects are none too bright, but early potato fields are expected to yield a 10-per cent increase above last season, although planting was delayed.

Will Study Diseases At Lethbridge Lab

To aid the western farmer in controlling plant diseases as well as insects, the Dominion Department of Agriculture's Science Service is expanding its laboratory at Lethbridge, Alta. Research in plant pathology will now be added to the entomological work carried on there since the laboratory was established in 1912, announces Dr. K. W. Neatby, Director of Science Service.

To co-ordinate at this laboratory the investigations of the various units of Science Service and to increase liaison between Science Service and the Experimental Farms Service and western universities, the Department has appointed W. C. Broadfoot, Officer-in-Charge. Formerly at the Dominion Laboratory of Plant Pathology, Edmonton, Dr. Broadfoot has headed research in seed-borne diseases at Ottawa for the past two years.

In this laboratory expansion, plant pathology will be headed by Dr. M. W. Cornsack, an authority on diseases of forage plants, formerly of the Dominion Laboratory of Plant Pathology, Edmonton. Dr. C. W. Farstad will continue to be in charge of research in field and forage crops insects; R. H. Painter in livestock insects.

From their studies of wheat stem sawfly and pale Western cutworm, government scientists have enabled grain growers to save millions of dollars. Under the successive guidance of E. H. Strickland, H. L. Seaman and G. F. Manson, results obtained at the Lethbridge laboratory have been widely adopted by western farmers.

Their reputation enhanced by their work at Lethbridge, Strickland is now professor of entomology, University of Alberta, Edmonton; Seaman is Chief, Field Crop Insect Investigations, Dominion Department of Agriculture, Ottawa; Manson is being transferred as Officer-in-Charge of the Dominion Entomological Laboratory, Chatham, Ont.

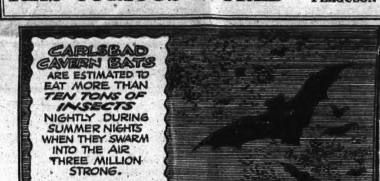

A RECORD

In Britain, the record for being farthest from a railway line — 18 miles — is held by the village of Lynton, Devonshire.

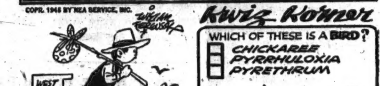

The word barber is derived from the Latin barba, meaning beard.

Health LEAGUE OF CANADA presents TOPICS OF VITAL INTEREST

The following are questions and answers appearing in a recent issue "Health News", featuring a column under the heading "Health Quiz", that have helpful and important information.

Q—Should I use baking soda to preserve the fresh green color of vegetables?

A—No—the "nutritional value" is not in the color; and the ordinary heating with baking soda destroys vitamin C completely.

Q—Is Cancer hereditary?

A—If cancer has affected persons remotely related to you it means nothing. In direct line, as father and mother, it is not necessarily inheritable, but a bit more watchfulness is suggested.

Q—In view of the fact that smallpox has been wiped out in this country is there still need for vaccination?

A—Absolutely. There is no natural immunity from smallpox. Any one who has not been vaccinated can contract the disease.

Q—How can I get rid of an ingrown toenail?

A—Consult a qualified chiropodist. However, if you prefer to handle it yourself, you should be warned of the danger of digging scissor points under it, or of trying to trim it with penknife or razor blade. Instead, soften the nail by soaking in warm soapy water. With a razor or something similar scrape the centre of the nail from root to tip, but don't cut through the nail. Bend up the ingrown portion of the nail and insert a tiny piece of cotton or wool underneath it. Replace the packing each day. Don't cut the nail until the ingrowing spur has grown past the painful spot. Then cut straight across and not down and around the side of the toe.

BRIDAL SHOWER

A very lovely shower was held on Wednesday, August 18, in the Catholic hall at Bellevue in honor of Miss Mary Adams, bride-elect of this month.

She entered the hall with her cousin, Mary Garbier, of Burnaby, B.C., and was met at the door by Mrs. Mokasek who pinned a lovely corsage on her dress and was then led to the bride's chair to the strains of the Wedding March played by Frances Cardie.

Whist and bingo were played during the evening, after which a dainty lunch was served.

The bride-to-be was then presented with an array of beautiful gifts, for which she ably thanked her many friends.

A special thank you went to the hostesses, Mrs. Mokasek, Mrs. J. Selins, Mrs. C. Mokasek, Mrs. G. Klesken and Mrs. J. Drevenak, for helping to make her shower a success.

Checking Rails in South

Rails on the Lethbridge division of
the Canadian Pacific Railway are hav-
ing their annual check-up by the
Sperry Rail Detecting Service. The
detector car is now plying along the
Calgary-Lethbridge track, having com-
pleted the run through the Crow.

The Sperry Service, which is the
only company of its kind on the North
American continent, has been opera-
ting for 20 years. Only recently it
found its millionth defective rail. It's
a wonderful thing," say railwaymen,
and has undoubtedly prevented many
major accidents.

Work of the detector is to seek out
the minor imperfections in rails that
are not visible to the eye. Small fla-
res in the steel grow with the con-
tinuous pounding of the wheels and
if left unchecked develop into dan-

UK Party Visit Canada

An important United Kingdom en-
gineering mission will shortly visit
Canada on a seven-week coast-to-coast
tour.

The mission will arrive in Montreal
on August 27 and in Ottawa on Au-
gust 29. It will then be in Montreal
again from August 31 to September
5; Toronto, Sept. 6-12; Sudbury, Sept.
13; Winnipeg, Sept. 15-16; Regina,
Sept. 17-19; Calgary, Sept. 20-21; Vic-
toria, Sept. 23-25; Vancouver, Sept.
28 to Oct. 1. Edmonton, Oct. 4-5; Ot-
tawa, Oct. 7; Montreal, Oct. 8-10;
Quebec, Oct. 11; Halifax, Oct. 13-14,
and Saint John, Oct. 15-16.

As announced in the United King-
dom house of commons on July 19
by Mr. Bottomley, secretary for over-
seas trade, the objects of the mission
are to "investigate market possibili-
ties mainly for the heavier types of
industrial engineering equipment; to
obtain first-hand information on any
difficulties in regard to trade with
Canada in the engineering industry, and
to advise on the most suitable meth-
ods to adopt to secure a greater vol-
ume of exports from this country (the

gerous weak spots.

When the detector car runs a test,
it lowers a mechanism to the tracks
and runs a 3,000 ampere current at
low voltage through the rails. The in-
duction current set up is registered
on a chart in the car and any addi-
tion or subtraction to the mass of
metal causes a flicker in the circuit,
which is indicated on the chart. When
a wonderful thing," say railwaymen,
a deviation is marked, another me-
chanism automatically sprays paint on
the faulty rail. The operator then
stops the car and checks over the spot
to decide if the defect is serious. Rails
that are worn slightly on the top are
not considered dangerous, but those
that show signs of wear are marked
to be taken out and broken up.

TENDERS

for the Construction of
Buildings at Blaimore,
Alberta, as Headquarters
for the Eastern Rockies
Forest Conservation
Board

Sealed tenders enclosed in envelopes
marked "Crownst Forest Headquar-
ters Buildings, Blaimore," and ad-
dressed to the Deputy Minister, De-
partment of Lands and Mines, Admin-
istration Building, Edmonton, will be
received until 4:30 p.m. on the 31st
day of August, 1948, for the construc-
tion of buildings at Blaimore, Al-
berta, as headquarters for the Eastern
Rockies Forest Conservation Board.
The plans and specifications are on
exhibition at the office of the Eastern
Rockies Forest Conservation Board,
Public Building, Calgary, and
Room 409, Administration Building,
Edmonton, at which offices copies may
be obtained upon the deposit of \$25
in the form of a certified cheque made
payable to the Provincial Treasurer
of Alberta. This deposit will be re-
mitted when such copies are returned
in good condition.

Each tender must be accompanied
by a certified cheque on a chartered
bank in Canada, certified Treasury
Branch order cheque or certified non-
negotiable transfer voucher payable to
the Provincial Treasurer, for ten per
cent (10%) of the amount of the
tender.

All deposits so made will be return-
ed unless, in the case of the success-
ful tenderer he should decline to enter
into a contract for the work when re-
quested to do so or should fail after
accepting the contract to complete the
same satisfactorily.

The lowest or any tender will not
necessarily be accepted.

J. HARVIE,
Deputy Minister,
Department of
Lands and Mines.

Edmonton, Alberta,
August 19th, 1948.

United Kingdom."

The mission consists of twelve mem-
bers, and is sponsored by the Board
of Trade. Its leader is Mr. E. H. Gil-
pin, director of Messrs. Baker Perkins
Ltd., and chairman of the British
Food Machinery Manufacturers' As-
sociation; and its associate organizer
is Mr. Norman Neville, OBE, director
of the BFMA and of the British
Chemical Plant Manufacturers' Associ-
ation. The mission will be accompan-
ied by a representative of the Min-
istry of Supply and by one of the
United Kingdom trade commissioners in
Canada.

Blaming others is the real opiate of
the people.

Going Away?

Carry Travellers Cheques and you can't lose...

It's the safe way to carry travel funds. Here's why
... Before your Travellers Cheques can be cashed,
they must be signed twice by you: first, when
you buy them and again when you cash them. So if lost,
stolen or destroyed, and before you have added
your second signature, they are worthless to anyone else
... and you get your money back. Keep your travel
funds safe. Carry Travellers Cheques on all vacation or
business trips. Cash them wherever you go, as you
need the money. Sold at all branches.

RELAX ...with PEPSI

See for yourself how down-
right delicious Pepsi-Cola is.
It's a real treat anytime. For
here's a drink that really sat-
isfies your thirst, doesn't just
tease it.

So drink an iced Pepsi-Cola
today... and often every day.

"Pepsi-Cola" and "Pepsi" are the registered trade marks
in Canada of Pepsi-Cola Company of Canada, Limited.

INSURANCE NOTICE

The Superintendent of Insurance of the Province of
Alberta wishes to announce and stress that The Home
Insurance Company of New York, maintaining a branch
office in the Canada Life Building in the City of Calgary,
Province of Alberta, is in no way connected with, affected
by, or concerned with the liquidation of Home Assurance
Company of Canada.

The Home Insurance Company of New York is duly
licensed to carry on the business of insurance within the
Province of Alberta, the said Company is in good stand-
ing and their annual reports indicate a sound and strong
financial position.

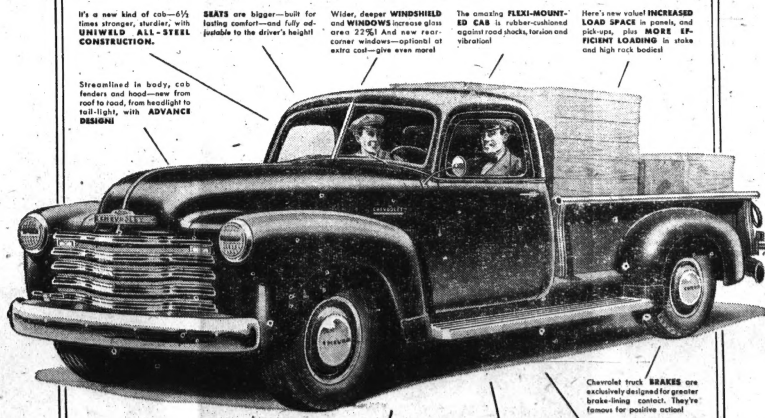

Due to numerous inquiries received by this department,
it is apparent that some confusion exists in the minds of
the public and policy-holders, caused no doubt by the sim-
ilarity in names, and any policy-holder of The Home Insurance
Company of New York who may have received a notice
from any Board or Corporation from which that policy-
holder concluded that The Home Insurance Company of
New York is in liquidation, is hereby requested to entirely
disregard such notice.

Appropriate measures are being taken to correct the
confusion which apparently has arisen in the minds of the
public and the policy-holders. In the meantime the Super-
intendent of Insurance feels impelled to make this an-
nouncement so that it may be definitely understood by
the public and the policy-holders of The Home Insurance
Company of New York that policies in The Home Insur-
ance Company of New York are in no way affected by the
events relative to Home Assurance Company of Canada.

E. R. HUGHES,
Superintendent of Insurance.

World News In Pictures

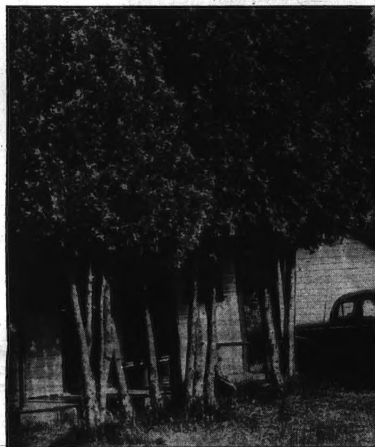

ONE OLYMPIC SWEETHEART—Donna Gilmore may not be the fastest girl in the 100 or 200 metres at the Olympics, but we'll wager she is the "puriest!" This Vancouver miss has been the target for autograph hunters ever since the Canadians landed at Southampton and has been prominent among those mentioned to be queen of the games.

HITLER'S CAR TO AID WAR ORPHANS—Hitler's armored Mercedes-Benz automobile, now owned by Christopher Janus of Chicago, Ill., is shown being hoisted into New York's R.C.A. building in Radio City. The auto will be placed on exhibition at Radio City's Museum of Science and Industry. Proceeds of the exhibition will be used to aid and educate war orphans at Athens College, a U.S. college in Greece devastated by Hitler's Nazi legions.

EXPANDS 65 ACRES INTO 1,025-ACRE FARM—Owner of 1,025 acres at Cedar Springs, Ont., Virgil McGuigan is one of two farmers who are directors of the Canadian Chamber of Commerce. With him is his son, David. Raspberries are but one of many crops in his "chain" method of farming. Effie Israel shows two carriers of pint boxes she has just brought in for checking.

ALWAYS ROOM FOR ONE MORE—Running a tourist camp all by himself near Lake Couchiching, Ont., is a big job for Frank Cox, 28, veteran who put his gratuities into the enterprise, but he criticizes reports of "crowded" resorts for hurting his business. Ironing, washing and bed making are all in the day's work for Frank. He built cabins, too, and then landscaped the area around them.

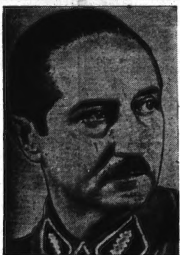

LATEST "NEW LOOK"—Newest thing in milady's "new look" is spat shoes. The one shown is of black patent leather with pearl gray suede welt buttoned with six pearl buttons. It made its appearance in New York.

TYRONE AND LINDA VISIT MADRID—Tyrone Power and Linda Christian, en route to Italy to make a motion picture, took some time off in Spain and visited the countryside before proceeding toward Rome. Notice the merry sideburns Tyrone is wearing.

QUALIFY FOR JUNIOR FINALS—Competing in the Royal Canadian Henley at Port Dalhousie, Ont., this eight of Toronto Argos defeated Ottawa and Detroit to qualify for the junior finals in the Canadian championship rowing races.

NABBED FOR RUSSIANS—Prince August Wilhelm, fourth son of Germany's late ex-Kaiser, has been arrested at Crailsheim, Germany, in the U.S. zone, on a war-crimes charge, it has been reported. He is wanted by Russian authorities and it is expected they will request his extradition to the Soviet zone.

DOG CAUSES EVICTION—Because of their pet dog, eviction faces Betty Widdowson, who holds fluffy, and her brother, Billy, seen with his pet dog, Faley. They are the children of Mr. and Mrs. Archibald Widdowson, who live in barracks, Toronto. Eviction order was signed. Even if the dog is disposed of, the family will be evicted if the cat remains, civic officials said, since the ban will be enforced on all persons keeping pets like cats.

ONTARIO FRUIT GROWERS TO FORM MARKETING SYSTEM—Ontario fruit and vegetable growers, dissatisfied with present marketing system and gap between producers and retail prices, are reported about to form a marketing organization. Berry pickers here are Donna and Gerry Cornell and Joan McDonald.

"MISS OXFORD COUNTY"—Nancy Fletcher, 17, of Ingersoll, Ont., was chosen "Miss Oxford County for 1946" at the annual Thamesford Y's Men's garden party which drew a crowd of 5,000 persons. The high school student expects to compete in Windsor for the Miss Western Ontario title.

SHEEPSKIN FOR KINDERGARTEN GRADS—It's a big day in their little lives, as Kathleen Ann Lally, five, receives her "sheepskin" from Very Rev. Thomas M. O'Connor, pastor of St. Catherine of Siena church as other kindergarten "graduates" await their turn in the Paris auditorium in New York.

Weekly Newspaper Convention Delegates —

Largest number of delegates in several years attended the 32nd annual convention of the Canadian Weekly Newspaper Association, Saskatchewan Division, at Regina, T. E. Striver of Wolsley, president of the Association, presided in the absence of President Dr. S. J. Dornan, of Alameda, who was regrettably missed for the first time in nearly 25 years because of illness. Many important and vital subjects were discussed, with the prime

aim of the Association to elevate the standard of newspaper publishing in an effort to increase readership value of the papers. At the last business session Mr. T. E. Striver of Wolsley, News was named President, Gerald Humphrey of the Nokomis Times, the new vice-president, with Walter Ashfield of the Gretna Sun as secretary-manager. Other members of the executive are A. B. Bock, Battleford Press; George Lancaster, Melville Journal, and J. Pinckney, Rosetown Eagle.

OUR COMPLETE SHORT STORY—

THOSE WE LOVE BEST

By RASCOM H. BIGGERS III

"I WASN'T the first argument," Laura and James had. During five years of marriage there had been many. But it was the worst one because it concerned something close to both of them. It was about the house.

"I can get a good price for it," said James. "I don't care how much you can get for it," said Laura. "This is our home and I don't want to give it up."

"Look, Laura, I love the place too," he said, "but with the money we make on it we can have one twice as nice and big as this."

"No. I don't care what you say, James. No. I don't want to sell. My friends are here and everything connected with the first years of our marriage. I won't ever agree to sell."

He tried to reason with her, but before they knew it they were fussing violently with one another and saying all manner of ugly things.

"You can have the house and everything that goes with it," shouted James in a fit of temper. "I'm leaving and I'm not coming back." He went to their room, threw some things into a suitcase and stormed out of the house. He started the car with a roar and shot out of the drive.

At Carlson, fifty miles away, he got himself a room in a hotel. He had cooled off some, but he was still determined that he would not go back. She was being unreasonable about the whole business, and he would just teach her a lesson. He wasn't every day, that a man got a chance to make a good business deal, but Laura was too sentimental to realize it.

Besides he was getting a little tired of being married. It was the same old thing day in and day out. Laura was unreasonable and could never see his way. A man got tired of being tied down.

"That night about twelve o'clock he was awakened by a pounding on his door. For several minutes he couldn't remember where he was. He got up sleepily and opened the door. His next-door neighbor, Fred, looked in wide-eyed and disbeliever.

"Good heavens, James, I've looked all over town for you. Laura's in the hospital. Her appendix burst and we had to rush her to the hospital."

"Oh no," said James sinking down on the bed, his face white. "Is she—will she—"

"I don't know. The doctor says she has a fifty-fifty chance. She's been calling for you. They were taking her into the operating room when I left. Come on, man, snap out of it and get your clothes on. You've a fifty-mile drive ahead of you."

"Oh, my poor darling," said James. "If anything happens to her I'll never forgive myself."

James dressed in a trance. He scarcely remembered Fred leading him out of the hotel and to the car. All he could think of was Laura, dear, sweet little Laura close to death. And he had quarrelled with her, run off and left her. He was missing when she needed him most.

He and Fred did not talk all the way back. Fred drove rapidly, James sat staring at the highway that dipped ahead into darkness, remembering all the happiness Laura had brought him.

He saw her excited face the day he gave her the engagement ring that was small but wonderful to her. He saw her on their wedding day, tears bright in her eyes. He remembered the day the doctor told them they could have no children and how it was Laura who held up best. She'd smiled at him and said, "Never mind, darling. We can adopt some, and we'll always have each other."

When he'd lost his job Laura hadn't fussed or cried or gotten upset. She'd hugged him and said, "Don't worry, dear. It's only for a little while. You'll get another one soon. We'll get along some how." And they did, all through Laura's effort. In every dark moment Laura had been there to brighten the way and encourage him. If he should lose her now—, Tears dimmed his vision.

And then there were the million and one little things that she was always doing, things that he didn't even really notice. Having his fishing equipment ready when he even suggested going on a trip, tending him when he had the slightest cold, never forgetting his birthday; smiling and making it all right when he forgot. This was the Laura he knew and loved, the Laura he could not live without. And because of one foolish argument he had thought of leaving her. What a fool he was.

Even about the house she was right. They both loved the place. They had poured their hearts into it, working to make it a home. And what was a little profit in comparison to things you cherished and loved. How stupid he had been.

"We're here," Fred said, and James snuggled back to the present. In the corridor of the hospital they met the doctor.

"Doctor—is Laura—?"

"She's going to be all right," he said patting James' shoulder. "Thank God!" said James. "May I see her?"

"Yes, she's sleeping now, but you may look in if you'll be very quiet." Standing in the doorway looking down at the sleeping figure of Laura, James realized how small and fragile she was. And yet she was such a pillar of strength to him. How he loved her!

Why, oh, why, he wondered, must we almost lose those we love best before we realize how much they mean to us? Help me, I remember every day that tomorrow I may not have her, and then I may love her a fraction of what she deserves.

She opened her eyes then, new of him and smiled, and he knew she understood that and that everything was all right.

PULP MILL AN ALASKAN PROSPECT

Establishment of a pulp and paper industry in Alaska, after 30 years' efforts, appeared near realization with the acceptance by the U.S. Forest Service of the bid of the Ketchikan Pulp & Paper Co.

This company has agreed to buy 1.5 billion cu. ft. of pulp timber near Ketchikan, Acting Chief Forester C. M. Granger has announced. This will result in the establishment of a \$20 million-\$30 million pulp mill at Ward's Cove, six miles north of Ketchikan.

Court Admits Will Eched On Tractor

SASKATOON. — Surrogate Court of Saskatchewan has admitted to probate a will scratched on a tractor fender.

In June when Cecil Harris of Moore, Sask., 73 miles southwest of here, was pinned beneath a tractor for nine hours, he scratched his will on the fender with a jackknife.

It read: "In case I die in this mess, I leave all to the wife." He signed it.

Harris died two days later.

FROM FRENCH WORD

The word grenade was taken from the French word for pomegranate because of a resemblance in shape to the fruit.

Western Briefs

EDMONTON. — Relief from summer's heat—but next year—has been promised for Edmonton children. Mayor Harry Almy announced the city's swimming pools will be doubled. Three more, costing altogether \$300,000, are scheduled.

INDIAN HEAD, Sask. — Indian Head now boasts a hard-surfaced, black-topped main street, at a cost of \$14,000. The town had the full length of Grand avenue, 12 blocks in all, built up, gravelled and tarred to a depth of three inches. The provincial government contributed the machinery and the town paid the cost of construction.

ROLAND, Man. — An annual sports day here featured a calf show. However, the event—sponsored by Roland Agricultural Society—had athletes too. Another feature was a four-team basketball tournament.

DRUMHELLER, Alta. — A small cube of Alberta coal, forming the centrepiece of an advertisement outlining some of the province's industrial potential, has been sent to 12,000 industrialists throughout the world. Each in a tiny coal sack, the samples used up 200 pounds of top-quality coal.

SHAUNAVON. — To please the children who missed the county fair when it was rained out, the Shawnee club and the Branston Carnival company entertained 400 children at a penny day. Over 1,000 bags of popcorn, 1,000 glasses of lemonade, 1,800 ice cream cones, etc., each went for a cent.

WINNIPEG. — The appointment of Clive B. Davidson as secretary of the Canadian wheat board was recently announced by the board in Winnipeg. Davidson has been associated with the board in various capacities since 1935. Of late he has been the executive assistant to the board.

FOAM LAKE, Sask. — The building boom continues in Foam Lake. Eight new homes are being built and six are being moved from farms in the district. Forget street in the Smith subdivision acquired seven homes in two weeks.

South Alberta Has Bumper Hay Crop

CALGARY. — Operations have been in full swing in some sections of the south bringing what promises to be the biggest hay crop in recent years. Due to late spring, plenty of moisture and warm weather. Some districts report more hay than can be cut and stacked with available labor and equipment.

Last winter the province had to import 140,000 tons of hay from Manitoba and much of the reserve stock was eaten up during the severe cold spell and late spring.

ONE INCH FROM DISASTER

LONDON. — A. Nicholson, of Madeline, was cutting logs on a circular saw when the blade struck something hard. The hard object turned out to be a "live" cannon shell. The saw had missed the detonator cap of the shell by one inch.

PIMPLES AND BLACKHEADS

Get rid of them so fast that members leaving skin soft and smooth. Proven over 20 years.

CONSTRUCTION NOTES

ESTEVAN, Sask. — \$31,700 contract has been let for extension of the Estevan college.

PINCHER CREEK, Alta. — Ratepayers have approved a \$100,000 by-law for a high school.

CARMAN, Man. — General contract for the \$175,000 memorial hospital of 44 beds has been awarded to Dring Bros. of Boissevain.

FLIN FLON, Man. — Construction of a \$100,000 dominion public building is being planned.

SHELLBROOK, Sask. — A \$45,000 contract has been let for construction of an 8-room school at Leoville.

EDMONTON. — Three new bridges are planned by the department of public works, at Goodwin crossing (near Grande Prairie), at Empress and Chimney, for a total cost of \$500,000. Assiniboia Engineering Co. Ltd., Calgary, has been awarded a \$300,999 contract for grading 30 miles between Glencliff and Bassano. Fred Manick & Co. Ltd. has been awarded a contract for road grading between Lethbridge and Turin for \$167,863.

New Uranium Find Reported In Northern Manitoba

FLIN FLON. — The second uranium find within a month in Northern Manitoba was reported here.

Walter Johnson, of Herb Lake, said core samples taken from Anderson Bay in the Herb Lake area had given assay results of one per cent. uranium in addition to encouraging copper and gold showings. The showings stretched across a width of 178 feet.

Gold values were reported as 70 cents to one seven-foot section, assaying at \$3.85 a ton.

Another possible uranium find reported from near the junction of the Fox and St. Per rivers in remote northeastern Manitoba.

Trapper Charles Dunn, the only white man travelling the area, placed a lump of black metal in a cigar box with unexposed film, the rock photographed in pitch darkness, indicating it contained luminosity, and possibly uranium. Dunn hopes to use a geiger counter over the area for more comprehensive tests.

This area also has showings of tantalum, a metal imported from South America for manufacture of surgical instruments.

AYRSHIRE BULL BRINGS HIGH PRICE

HOWICK, Que. — A 10-month-old Ayrshire bull brought to Canada from Scotland last spring sold for \$4,500 at a sale here. The bull, Carnell Sweepstake, was bought for the farm of Fowler McCormick at Barrington, Ill. In all 46 head were sold for \$34,870, an average of \$758 each and a record for Canadian Ayrshire sales.

MORE HASTE, LESS SPEED

SWAFFHAM, Norfolk, England. — Mrs. G. Salter here received a letter six years after it was posted. It stated that it was "written in haste."

Some Years Before Trans-Canada Road

OTTAWA. — Resources Minister MacKinnon said it would be some years before a trans-Canada highway is constructed.

He commented on a statement by Trade Minister Howe that the government intended calling a Dominion-provincial conference on the project some time this fall.

Mr. MacKinnon said some of the difficulties were:

1. Shortage of labor.
2. "Tremendous" cost of such a highway.
3. Problem of where the route should run.

The resources minister said some months ago he advocated the highway be built to attract greater tourist trade from the United States.

He envisioned the road as not necessarily following a line close to the border, but having feeder roads leading to border points.

"If a Dominion-provincial conference is called," said Mr. MacKinnon, "it probably will be held either in Winnipeg or Ottawa. Ottawa is the most likely choice."

He said he favored the selection of an independent commission to study problems involved in the road construction.

The project will cost millions of dollars," said the minister "and you may be sure it will be some years before it is completed."

New Uranium Find Reported In Northern Manitoba

FLIN FLON. — The second uranium find within a month in Northern Manitoba was reported here.

Walter Johnson, of Herb Lake, said core samples taken from Anderson Bay in the Herb Lake area had given assay results of one per cent. uranium in addition to encouraging copper and gold showings. The showings stretched across a width of 178 feet.

Gold values were reported as 70 cents to one seven-foot section, assaying at \$3.85 a ton.

Another possible uranium find reported from near the junction of the Fox and St. Per rivers in remote northeastern Manitoba.

Trapper Charles Dunn, the only white man travelling the area, placed a lump of black metal in a cigar box with unexposed film, the rock photographed in pitch darkness, indicating it contained luminosity, and possibly uranium. Dunn hopes to use a geiger counter over the area for more comprehensive tests.

This area also has showings of tantalum, a metal imported from South America for manufacture of surgical instruments.

SHIP 20,000 CARS FROM BRITAIN IN JUNE

LONDON. — British manufacturers shipped 20,000 motor vehicles overseas in June, the Society of Motor Manufacturers and Traders said.

AT COSMOPOLITAN HOTELYou'll get more work
out of a barrel of**IMPERIAL
TRACTOR
DISTILLATE**the ideal
fuel for low
compression
tractors

Definitely superior as a fuel for low compression tractors, Imperial Tractor Distillate gives you more power at the draw-bar. When you hit a tough spot Imperial Tractor Distillate pulls you through. There's a reason for this: the high octane rating of Imperial Tractor Distillate. Get a supply from your Imperial Agent—you'll agree it's a noticeably better fuel.

For high compression tractors

Local and General Items

Mr. and Mrs. Joe Vasek were Lethbridge visitors this week.

Mr. Len Purnell is confined to his bed due to an attack of pneumonia.

Mr. and Mrs. Alan Wright (Nee Mary Nicifore) have returned from their honeymoon.

Sgt. S. M. Murray, Mrs. Murray and Robert are expected to return over the week end from a holiday spent at the Pacific coast.

Mrs. A. McDougall left this week for Vancouver. Before returning home she will visit Mr. and Mrs. Lansdown (nee Shirley Bannan) in Alert Bay.

Mr. and Mrs. Mario "Pugy" Pagnucco and family have taken up residence in Blairmore again, after spending the past two years at Kingston, Ontario.

Mrs. A. Slopak and son Anthony, accompanied by Mr. Frank Weir, all of Tacoma, Wash., have returned home after visiting with relatives in Frank.

Miss Julie Amatto spent the week end in Fernie at the home of Miss Lillian Waskevich. She, witnessed an honest-to-goodness hailstorm, with the pellets about pullet-egg size.

Mr. and Mrs. "Gus" Howe returned this week to their home at the coast. They will spend a few days in North Vancouver with their son-in-law and daughter Mr. and Mrs. Anderson, before returning to Victoria.

Phrenologist: "Now this lump indicates an unusual sense of direction." Male Patient: "Yes, my wife was ten feet away when she threw the coffee-pot."

He: "I'm thinking of asking some girl to marry me. What do you think of the idea?"

She: "It's a great idea—if you ask me."

**EVERYBODY'S
BUSINESS**

When we speak of men as being "successful" it is generally assumed that we are referring to large incomes and prominent positions. But, while these are signs of success, they are by no means its only yardsticks.

Actually, I believe any man is successful who uses his energies and talents to the best of his ability. His earnings may be modest. But if he tries to improve himself and his environment, if he is dependable, agreeable and helpful, if he cares for his family and their needs, he is truly important.

Show me a man with these qualities and I will be proud to claim his acquaintance.

The best objective, surely, is to strive for success in the broader sense of helping to make this a better world!

The world is better because of life insurance which has achieved success through meeting people's need for financial security. And it contributes to the betterment of the whole nation through investments in public works and vital industries which benefit every citizen.

Mr. and Mrs. Adam Bonne returned from Calgary this morning.

Miss Mary Geralski has secured part-time employment at Thompson's.

Mr. and Mrs. Evan Morgan left on Thursday for Calgary and Lamont.

Mr. and Mrs. Chester Stanton (nee Ruth McKay) have returned to their home in Blairmore.

Mrs. F. M. Pinkney, Mrs. M. Pinkney and Mrs. C. Fabro are visiting in Calgary for a few days.

Dr. N. B. McLean, Mrs. McLean and their two children are spending a three-week vacation with relatives at the Pacific coast.

Mrs. Culham of Maple Creek, Saskatchewan, was the guest last week end of her son and daughter-in-law, Mr. and Mrs. H. Culham.

Mr. and Mrs. Roland Maniquet, of Fort St. John, B.C., are spending a short visit with relatives and friends in Bellevue and Blairmore.

THANKS to the Electors

I wish to convey to all voters my deep appreciation for the confidence they have shown in me by electing me to represent Pincher Creek-Crows' Nest Constituency in the Alberta Legislature.

To all those who assisted during the campaign and those who supported me at the polls, my sincere thanks. I shall strive at all times to serve all the people of Pincher Creek-Crows' Nest; and to promote legislation in the interest of this district and the Province.

Faithfully yours,

W. KOVACH**I WANT TO KNOW...****Does a Mother need insurance?**

Unless a husband and father is very well-to-do his wife should have her own insurance policy. If a mother dies when there are no funds available to pay a housekeeper, the home may be broken up and the children put out for adoption or sent to relatives. The answer is, "Yes, a mother needs life insurance." Make an appointment to talk things over with a Mutual Life of Canada representative today.
